29 set Michele Arcangelo

25 dic Natale

Quand'era Pasqua nel ...?

Mi è capitato di dover ricostruire la data della Pasqua di un anno passato per poter risalire a quale settimana del *Calendario dell'anima* corrispondesse un determinato giorno.

Una volta è stato per un defunto, un'altra per uno studente.

Ho deciso quindi di calcolare le settimane del *Calendario dell'anima* dal 1912 al 2061 e di offrirle a chi ne ha bisogno.

Fornisco solo due numerazioni:

1-55 n. di settimane intercorrenti dalla Pasqua alla Pasqua successiva in *bruta sequenza*

1-52 n. di settimane del *Calendario dell'anima* che tengono conto delle **Feste fisse dell'anno**, segnalando le settimane che subiscono degli **accorciamenti/allungamenti** a causa della *mobilità* pasquale.

La **data della Pasqua** usata è quella della *Chiesa cattolica romana* e non quella *astronomica*.

Ad es. per gli anni 1924, 2019, 2030, si dovrà rivedere sia l'anno considerato che quello precedente in quanto la Pasqua influisce sulle ultime settimane dell'anno precedente.

Per alcune riflessioni sulla data della Pasqua si veda l'ottimo articolo di *Jonathan Hilton* disponibile su

[L'Archetipo di Aprile 2019](#) molto chiarificatore anche se non analizza il giorno della Settimana, perché, forse, la nostra Domenica è invece un Mercoledì... o no?

Agosto 2022

Buon utilizzo.
Enea
